Activity F

Earth looks blue from space because it has so much water. The largest ocean is the Pacific Ocean. The other four oceans are the Atlantic, the Indian, the Arctic and the Southern. The Irish Sea separates Ireland and England. When water freezes, it turns to ice. When water boils it, turns to steam. The first trains were called steam engines because they ran on steam.

Activity D

1. The sun shines on the sea and turns the water into water vapour.

- The water vapour forms clouds.
- The clouds get cold and turn back into water vapour.
- The wind blows the clouds in over the land.
- The water falls out of the sky as rain.

Activity C

- The Indian Ocean is the largest ocean in the world. **False**
- Raindrops are salty. **False.**
- We should not drink water from the ocean. **True.**
- The water in most houses comes from a reservoir. **True**
- Steam engines ran on petrol. **False.**
